PRECISION COMPONENTS FOR PROCESS & INSTRUMENTATION

Thermowells, flanges & fittings built around your application

Standard catalog parts and custom components for industrial systems across the Intermountain West.

THERMOWELLS

Threaded, socket-weld, weld-in, flanged/Van Stone, sanitary and limited-space styles. Straight, tapered or stepped stems, with custom lengths available.

FLANGES & WELD PADS

Flanges to standard or customer specifications, including Van Stone connections, slip-on flanges and weld pads.

UNIONS & INSTRUMENT FITTINGS

Unions, compression fittings, nipples, couplings, adaptors, reducers, plugs and caps in a range of configurations and materials.

CUSTOM MACHINED PARTS

Built to print from a drawing or sample. CNC and VMC machining, Swiss turning, gun drilling, casting, forging, laser cutting and finishing.

A STRAIGHTFORWARD PATH FROM INQUIRY TO DELIVERY

01 **Send a print, spec or sample**

02 **Get pricing and lead time**

03 **Review options with the team**

HAVE A PART OR PROJECT IN MIND?

Bring us your drawing, specifications or application details.

Armorep can help connect your requirements with SensorComp’s quoting and engineering team.

From first question to finished component

A responsive process for standard parts, custom work and repeat orders.

01 SHARE THE NEED

Send a drawing, specification, sample or brief description of the application and quantity.

02 REVIEW THE QUOTE

SensorComp handles pricing and technical review. Complete enquiries are normally quoted within two business days.

03 PLAN THE ORDER

Confirm material, configuration, certifications and delivery timing before the order is released.

USEFUL DETAILS TO INCLUDE WITH AN ENQUIRY

- **Connection** — Thread type, flange standard/class, end connection
- **Service** — Fluid or process, temperature, pressure, environment
- **Part details** — Dimensions, material grade, quantity and tolerances
- **Documentation** — Applicable code, inspection or certificate requirements

WHERE THE LINE CAN FIT

Oil & gas | **Water & wastewater** | **Mining & minerals** | **Power generation** | **Process equipment** | **Instrumentation**

Product configurations, material availability, certifications and lead times vary by item. Confirm requirements on the quote. Select catalog items may be available from U.S. stock in Michigan; custom parts are quoted to order.
